

AQUAZIP® ONE PRO

ONE-COMPONENT ELASTIC
POLYMER CEMENT
WATERPROOFING COATING

**FASSA
BORTOLO**

UNMATCHED WORKABILITY: SPREAD AND GO!

With **AQUAZIP® ONE PRO**, applying the product becomes a real pleasure. Its excellent workability allows it to glide effortlessly, making it possible to create a uniform and consistent layer with every application.

This results in:

- **Total coverage:** even the most difficult corners and irregular surfaces are perfectly waterproofed, with no uncovered areas.
- **Less effort, higher speed:** a product that is easy to apply reduces physical strain and allows the work to be completed in less time.
- **Impeccable finish:** the fluid consistency provides a slight self-levelling effect, ensuring a smooth, professional finish in a short time.

The perfect synergy between workability and thixotropy makes **AQUAZIP® ONE PRO** the ideal solution for every type of application.

WHEN THE JOB REQUIRES PRECISION, ESPECIALLY ON VERTICAL SURFACES, YOU NEED A PRODUCT THAT MAKES YOUR LIFE EASIER. THE EXTRAORDINARY WORKABILITY OF AQUAZIP® ONE PRO IS THE PERFECT ANSWER TO THIS REQUIREMENT.

AQUAZIP® ONE PRO: YOUR PARTNER FOR SUSTAINABLE AND HEALTHY CONSTRUCTION

Today, choosing a building material also means choosing the quality of the air you will breathe. For this reason, **AQUAZIP® ONE PRO** has been developed to exceed the strictest international standards, achieving the prestigious **GEV EMICODE EC1 Plus** certification.

Health and wellbeing: low-emission materials significantly reduce risks related to indoor air quality. Using **AQUAZIP® ONE PRO** helps to create healthier environments, protecting the health of those who live and work in them every day.

Environmental sustainability: the **GEV EMICODE EC 1 Plus** certification is not just a symbol of quality, but also represents a concrete commitment to more responsible construction practices. Choosing this product supports a building approach that minimises environmental impact.

CYCLE FOR RESTORING BALCONIES

The outstanding adhesion performance of **AQUAZIP® ONE PRO** on various types of substrates makes it possible to waterproof balconies and terraces without removing the existing flooring, resulting in significant savings in time and costs related to demolition and disposal of waste materials.

1 GAPER 3.30
Cementitious technical mortar

2 FASSAFLOOR PRIMERTEK ULTRA
One-component adhesion promoter*

3 First and second coat of **AQUAZIP® ONE PRO**,
Waterproof coating
+ **FASSANET 160**, reinforcing mesh*

1 GAPER 3.30
Cementitious technical mortar

4 AQUAZIP® ELASTOBAND
Strip and accessories

5 AZ 59 FLEX
or **AT 99 MAXYFLEX**
or **RAPID MAXI S1**
Adhesives

6 Porcelain stoneware tiles

7 FASSAFILL RAPID
Quick-setting cementitious grout

8 FASSASIL NTR PLUS
Neutral-coloured silicone sealant

2 KZ 35 ZOCCOLATURA SOLFATORESISTENTE
mixed with water and AG 15 (3:1)

3 Reinforced skim coat
using a suitable product

* where required
