## FASSA BORTOLO LEND RENDERING EXPERTISE TO BREATHE NEW LIFE INTO PERIOD PROPERTY

Leading Italian render manufacturer, Fassa Bortolo, has recently completed work on a stunning period property in Windlesham, Surrey.

Briefed by The Structure Group, this high specification residential project required a quality finish to retain its premium appearance and period charm. Having used Fassa on various other developments,

the contractor was keen to specify a Fassa system to deliver the best results giving the homeowner a stunning finish that will last for years to come.

Covering a total space of 5,500m<sup>2</sup>, the project was carried out using one of the popular Fassarend systems, which includes applying **SP 22** primer directly onto existing brickwork before adding a layer of **KI 7** base coat, while for the new medium dense blockwork there was a direct application of **KI 7**. Both cycles were finished with **FX 526** as a primer and **RX 561** siloxane top coat as decorative coat.

The Client quoted: “The service provided by Fassa was first class and made choosing the finish for our project much easier. The Fassa team worked alongside us throughout the application process giving us expert advice and increased our confidence in the final results, which we were very happy with.”

Andy Sampson, Business development manager for Fassa across the South-East specified the project. He comments: “We always strive to deliver a seamless process for any Fassa project. We’re known for our quality materials and match that with our commitment to customer service to exceed the expectations of our clients. We’re delighted to have been involved in this project and to be invited to specify for yet another project with a returning contractor.”

## ABOUT FASSA BORTOLO

Fassa Bortolo is the leading Italian manufacturer of renders and integrated render systems. Building on 312 years of heritage, the company has grown to open a number of distribution units across Europe including the UK, France, Italy, Spain, Portugal and Switzerland. With a rigid set of values, Fassa prides itself on unrivalled product quality, its commitment to research and ethical quarrying.
